

# Team Impact: Developing More Effective Teams

What are your Team's pressing challenges and how are you trying to solve them?

Together we will uncover your **Team's pain points**, decipher best practices and participate in several creative-based, problem solving methods.

**During this workshop your Team will learn how to:**

- Creatively approach pressing challenges or issues
- Establish ideas through solid collaboration
- Develop action steps
- Move towards a successful solution

Through **discovery, collaboration** and **idea generating**, your Team will better understand their pressing challenges by applying new tools and helping bring your challenge closer to fruition. Your Team will come away with inspiring, written down ideas that they can continue to refine, test and measure.

Call or email Marni to **schedule a Workshop** at your next leadership or department meeting.

## About Marni

Marni is Chief Creative Officer at Marni Myers Creative, a **brand strategy, graphic design** and **photography** studio in Denver, Colorado. With 25 years of creative experience, she partners with hotels and hospitality, food and beverage, and seasoned small businesses, assisting them in standing out through the use of compelling stories. Specializing in **Integrated Branding Programs** – your business and product name, logo, graphic design for print, website design, social media marketing and photography – all efforts work together to showcase a cohesive, streamlined look and message your target audience will remember.
